

DESCRIÇÃO DO PRODUTO:

IP54

AC210-250V

AC220V

Interior

-30°C +70°C

CE, RoHS,
ECORAEE

CARACTERÍSTICAS TÉCNICAS:

Proteção IP	IP54
Tensão de Funcionamento	AC210-250V
Alimentação	AC220V
Interior-Exterior	Interior
Temperatura de Trabalho	-30°C +70°C
Certificados	CE, RoHS, ECORAEE

DETALHES:

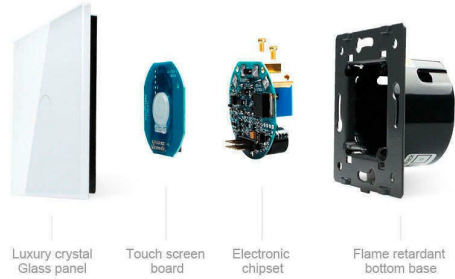

Comutador fácil de 1 corpo com 1 ligado em cor Branco com função de controle remoto (vía RF). Comutador elétrico de Encastrar com corpo de alumínio e Pannel frontal táctil iluminado de cristal temperado com acabamento de alta qualidade e desenho minimalista.

GALERIA DE IMAGENS:

Structure

Perceiva the essence through the appearance.

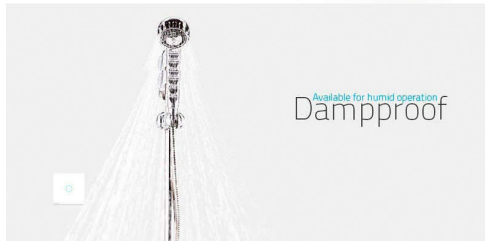

Luxury crystal Glass panel Touch screen board Electronic chipset Flame retardant bottom base

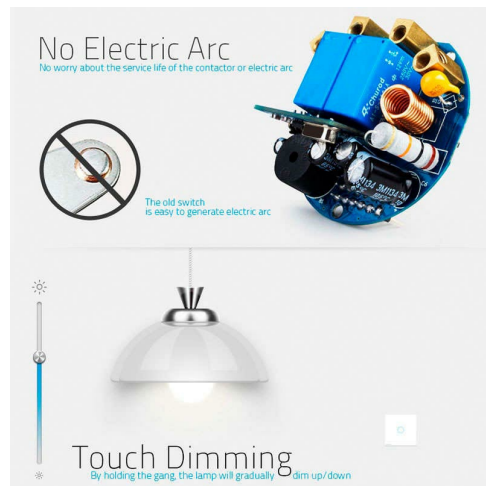

Backlight Indicator

luminated more considerate

Dampproof

Available for humid operation

No Electric Arc

No worry about the service life of the contactor or electric arc

The old switch is easy to generate electric arc

Touch Dimming

By holding the gang, the lamp will gradually dim up/down
